

New Heads of College appointed

Lauren Gilson and Liam Fox have been appointed new Head Girl and Head Boy of Midhurst Rother College. Lauren, who is studying A Level Maths, English, Geography and Religion and Philosophy is also an accredited MRC Sports Leader. Liam, recently successful as Managing Director of the MRC Young Enterprise company, Transcendancy, which won Best Product of the Year Award at Chichester College, is studying ICT, Business Studies and Photography. They are both aiming for university next year, Lauren with a future based on her interests in maths and geography, Liam focusing on a career in ICT. Although wishing to steer clear of the 'make the difference' cliché they feel that with the enabling style of the Midhurst Rother College staff, Senior Leadership Team, the direct support of Miss Weeks, Assistant Principal, and the backing of their peers, they are going to be pivotal in making sure that students really do have their say as MRC moves forward, especially into its new building, due to open in Autumn 2012. contd/6...

Partnership News

The tenth and final session in the **Year 7 SHINE** project, running in conjunction with Winchester College, takes place this month. Students have participated in a range of activities from performing Macbeth in the cloisters, to propelling rockets in physics and working on complicated algebraic equations. Students in **Year 10** have also been working with their peers on a joint photographic exhibition which will be displayed both in Winchester College's Angelus Gallery and our own Capron House in the autumn term.

Meanwhile, Mr Richard Brimacombe and Miss Sally Tidbury of the Music Department are in talks with Masters at Winchester planning joint workshops for the next academic year.

Davina's Divas

Katie Moore, Grace Scott and Lou Simac, Year 10 BTEC PE Students and Sports Leaders (pictured here with celebrity Davina McCall), were chosen as representatives of Midhurst Rother College to support the Davina's Diva 100 Ladies Only bike ride event at Cowdray. Said Action Medical Research Community Fundraising Manager, Alice Lisher, "The girls were fantastic! They were full of enthusiasm and did their job absolutely brilliantly, enormous thanks to them and we hope they are going to be able to help again next year!"

Inside Track

(left), "It was a great opportunity not just to learn about the construction industry, but also to get a look at the foundations of the new school. It was brilliant." contd/6...

The first group of students to take advantage of the construction site viewing area at Midhurst Rother College said that they really felt like they were part of the new building project.

Members of the Balfour Beatty construction team, Rowan Swallow and Paul Jarmyn presented the students with a general overview of the project and different aspects of the work being carried out. Careers advice was also on hand focusing on all aspects of engineering along with a particular tutorial on surveying and the specialist equipment.

Said Year 11 student, Dominic Groves, (pictured

Pause for thought...

The world's last known combat veteran of World War I, British born, **Claude Choules, died on 5 May in Australia aged 110.** He witnessed the surrender of the German fleet in the Firth of Forth in November 1918, then the scuttling of the fleet at Scapa Flow.

Mr Choules remembered WWI as a "tough" life, marked by occasional moments of extreme danger. He lied about his age to become a Royal Navy rating, joining the battleship HMS Revenge on which he saw action in the North Sea aged 17. After the war he served as a peacekeeper in the Black Sea and in 1926 was posted as an instructor to Flinders Naval Depot, near Melbourne. It was on the passenger liner to Australia that he met his future wife to whom he was married for 80 years.

During the Second World War Mr Choules was the Acting Torpedo Officer of HMAS Fremantle. He was also Chief Demolition Officer tasked with sabotaging Fremantle harbours and related oil storage tanks in the event of a Japanese invasion. Mr Choules was also the last veteran to have served in both world wars, and the last seaman from the First World War.

Tough training for summer expedition students

The expedition to Vietnam this summer is going to be tough. Hiking in unfamiliar conditions, through jungle and over hilly terrain faces them all, along with a big, eight day community project planned which involves their building of a much needed bridge between two villages to enable local people to transport provisions more easily and provide access for medical treatment.. *The team involved is seen here on one of their training weekends on the South Downs.* The company supporting the expedition, True Adventure, are paying for part of the project and rather than the villagers footing the rest of the bill students are hoping, through fund raising, to cover the rest..

Mrs Jayne Beesley, 6th Form Pastoral Leader and one of the leaders of the expedition says access to previous funding has dried up so they are having to get their 'thinking caps on' about how they can raise money. "So far we have made

nearly £600 through an Own Clothes Day at College. Although I am quite nifty with a shovel, my bridge building skills are a bit rusty so we are going to need all the help we can get to make sure we have enough money to employ helpers on site. If anyone has any suggestions or would like to contribute to our fund I would look forward to hearing from them!". *Mrs Beesley will be accompanied by Assistant Principal, Miss Weeks, Curriculum Leader: Art, Design and Technology, Mr Atkinson and True Adventure guide, Tom Battye.*

Front L-R Tom Sprinks, Harry Carter, Mrs Jayne Beesley, Ffion Parry, Josie Ford, Storm Chiverton, Charles Aitken
Back L-R Paddy King, Ben Eykyn, Cam Schmidt, Lauren Gilson, Leah Russell, Lucy Bryant, Alice Hatch, Jack Clarke, Megan Casebow, Hannah Collins, Tom Battye (True Adventure guide) and Scarlett Harris.

Young researchers rewarded

Catriona Gibbon, Styn Oomen and Emily Collins-Wingate (pictured right) recently attended a presentation evening for the Warwick University Young Researchers Competition at Guildford High School for Girls. This was one of several local area presentation evenings at which our students were awarded Highly Commended and Talented Research Writer certificates. Well done!

Another success for MRC Sustainability Day

array of animals provided by Miller's Ark and youngsters were just thrilled at being able to get so up close and personal.

Balfour Beatty, the construction company in charge of the Midhurst Rother College new build project were on hand with an exhibition under the banner, *Sustainability – a Collective Responsibility – A Sustainable School for the Future*, led by Project Co-Ordinator, Phil Brindley, who along with MRC staff member, Mrs Angela Thornley, conducted visits to the site viewing area so that everyone could see for themselves the progress that was being made.

Maddie Williams, MRC Community Partnership Coordinator and event organiser said, "In spite of the forecast we were delighted with the weather and the success once again of this event. This has become a day for the whole community and a wonderful way for Midhurst to celebrate itself. We are already looking forward to next year."

Midhurst Rother College hosted its free, family event, **Keep It Local Eco Sustainability Day** in surprise sunshine. Many local agencies and businesses who have an interest or involvement in green issues displayed their services and offered advice. Southern Water, Better Tomorrow and Energy GainUK gave advice to the public on how they could save money while becoming more environmentally friendly. South Downs National Park Authority promoted our new national park. Local businesses exhibited their eco-friendly goods and services. Delicious organic food was cooked to order by Richline Farms while SUJOCO Cookery School demonstrated how to make delicious nettle rarebit and wild garlic, pistachio and broad bean hummus. The members of **MIDHURST OVER 60s** raised some £400 for Help for Heroes through a raffle and their cake and plant sale. The ever popular pond dipping, bug viewing through electronic microscopes and plant pot making were among the eco-activities enjoyed by families. The college's own Hush Salon painted faces and local band, Samboogie provided musical accompaniment to the event. Visitors as usual were captivated by the fantastic

Watch this space!

Transcendancy Board of Directors, 6th Formers Nick Gover (IT), Liam Fox (MD), Rueben Lee (Finance/Company Secretary), Sian Budd (HR), Abi Chard (Sales), Hannah Grant (Operations)

companies, such as Rolls-Royce Motor Cars Limited and Barclays Bank PLC. Their products have been sold through the **Transcendancy** website, via word of mouth, direct selling and even at the awards day stand! Each student has taken their role very seriously, learning how to run a successful company and more importantly how to cope with real life business issues.

Said Mrs Karn, Teacher of Business Studies who has worked with **Transcendancy** from its inception, "The students have deservedly gained this award through high spirit and fabulous team work. It is a true sign of great things to come from each of these magnificent students. They have served Midhurst Rother College well and we are proud of their achievements."

MRC 6th Formers scooped Young Enterprise Best Product Award at Chichester College. Amazing effort and professionalism paid dividends for Midhurst Rother College 6th Form Business Studies students, when local schools came together at Chichester College to fight it out for trophies and respect! Six outstanding MRC students worked hard in preparation for the day by putting together a thorough, confident and very funny presentation to promote their company **Transcendancy** and its products, bath bombs, scented melts and stamp watches. This, together with hard work and determination, helped them storm through to win the fantastic accolade of **The Best Product 2011**. All the students have really made it through a difficult but rewarding journey to get to this point. They first took part in a Dragons Den-type process which was judged by executives from some of the finest blue chip

Celebrating sport

Hayley Kemp, Subject Leader: PE reports: We have just had an amazing year so far in sport. As a big rugby fan myself I am particularly thrilled to see that our ladies' team has taken off and we now have more boys playing rugby for Midhurst Rugby club than ever before, having started their rugby experience at MRC! It might have something to do with our wonderful sponsored strip of which they are all very proud when we play away games. Meanwhile, 6th Former Cameron Schmidt continues his ascendancy in the game, playing County standard as hooker for Sussex RFC U18s.

What's really exciting for me overall is that students are proactive and come to me with proposals of what they would like to get more involved in. A great example of this is our group of lady cheerleaders, Razzle Dazzle who not only put on performances for students and parents, but have also appeared at local garden parties and fetes. As a group they really take the lead themselves and I am so impressed by their energy, commitment and teamwork. Our cricket and stoolball seasons have now begun and already our athletics teams are in training for both outside fixtures and our own sports day.

Midhurst Rother College Mountbatten Sports Team 2011

Year 8 Sports Leaders

and already we have a group keen to start training in September to take part next year. Although it's supposed to be for girls only, I'm pleased to say that some of our boys are keen to join the training too.

I am also very proud of our students who not only put their heart into PE, in lessons and representing College, but show true commitment to their sporting passions in leisure time. The success of our U16 and U14 football players in their local teams this season has been amazing, featuring regularly in the press and many highlighted as exceptional individuals. Year 10, Tom Cain, as a Sports Leader, has relinquished his place in the former to manage the latter. International runner, Adelle Tracey continues to astound us all with her commitment to a rigorous training schedule, her achievements on the track and her high media profile in connection with the Olympics, while continuing to be an excellent student who has secured a place at Bournemouth University. We are all keeping everything crossed for her in 2012! Peter Thomas a Year 8 Sports Leader will shortly be presented with Bronze in the Chichester District Youth Sport Achievement Awards 2011 in recognition of his excellent performances in shot and discus. We also have two county and national sports people in Olivia Winther (sailing) and Ashley Baker (show jumping) along with martial arts medal winners Georgia Stemp (judo), Lucy Van Zwanenberg (Y8) and brother Oliver van Zwanenberg (Y10); the two latter students have just achieved Black Belt status in taekwondo. We also have a very competitive Guildford Flames Ice Hockey player, Ollie Denis and Emma Baigent is representing Sussex U18 in Stoolball. Meanwhile, Year 11 Archie Challen is taking the local golf world by storm and is this year's Junior Captain at Cowdray. *I know this is just the tip of the iceberg and I can't tell you how thrilled I am, along with all my colleagues, when a student shares such great stories with us. We feel nothing but admiration and want to give them all the support possible.*

Ashley Baker and Cowboy won two West Sussex qualifiers to reach the Royal Windsor Horse Show this year, winning a 4th place in the prestigious Top Score show jumping competition—see *Press Cuttings* on our website for more information

Lucy and Oliver van Zwanenberg recently achieved Black Belt status in taekwondo—see *Press Cuttings* on our website for more information

Ollie Denis plays highly competitive ice hockey for the Guildford Flames.

As Guildford Sports Personality of the Year two years running, athlete Adelle Tracey is seen here with the Mayor and Olympic Gold Medal winner, Allan Wells, fronting the publicity campaign following the announcement that the Olympic Torch route will go through the Surrey Town.—see *Press Cuttings* on our website for more information

Reaching out to our primaries

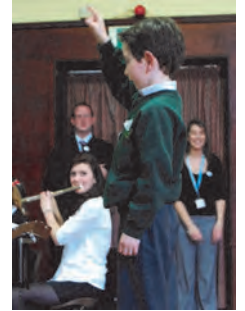

So far this year Science Teacher, Mrs Skelt has worked with our primary schools on 27 occasions. The students from Rother Valley primaries have been captivated by Heart Dissections, Colour and Light, Kitchen Sink Chemistry and Amazing Big Bangs to name but a few. Schools are offered 1 hour sessions with Mrs Skelt who uses every avenue to engage her visitors; when asked recently about her Science experience at MRC, Year 5 pupil Alice, from Northchapel, said, "It was brilliant and Mrs Skelt was very funny!"

We have held four Gifted and talented Days for the Year 5s and 6s in Science, English, Media and Music. For whole Year Groups we have staged a Locality Day full of outdoor activities at Stedham Camp and The Big Sing- a huge sing-a-long for Year 6 lead by Emily Barden, WSSC Curriculum Leader for Voices and Choirs and the ever popular Funmaths Roadshow for Year 5. A big thrill for everyone involved was Orchestra! organised by Music Teacher, Miss Tidbury. Fifty two young musicians from the Rother Valley Primaries joined our lower school orchestra to learn new musical skills and perform all together. Sue Gibbon from Fernhurst

Primary said of the day, "It was a fantastic opportunity for the children to meet and play with others. I think the memory of watching the budding conductors will live with us all forever!"

Hold the front page!

With the support of local community police officer, PC Finch, English Teachers Miss Odette Marshall and Miss Naomi Pescott hosted a **Crime Report Writing Day** for Year 5 pupils from our Rother Valley Schools. With a body mark out, incriminating finger prints and a crime scene awash with clues, the pupils were swept away by the task, determined to discover 'who dunnit'.

Said Miss Prescott, "Our junior crime reporters were totally committed to discovering the truth and their team work was terrific. The reports that resulted from the day were very well thought through and we were

particularly impressed not only by the enthusiasm, reading skills and techniques that were evident, but also the standard of hand writing and presentation."

Something fishy going on in Year 11

From the left- Mr Charles Jardine, Mr Paul Thompson, Dominic Groves, Benn Greenfield, Nathan Przepiorka, Sean Holden, David Hill

association with Duncton Mills Trout Farm and Fishery, the students had sessions both in the classroom and in this famous West Sussex beauty spot. They were all astounded at the skills and patience required and were particularly taken by watching Charles make his own flies. Mr Thompson, a fisherman himself has already reserved places for College students next year, "None of the boys had ever experienced this sport before and all took to it, with David Hill proving to be particularly adept and receiving many compliments from Charles himself."

Fishing For Schools is an exciting project from The Countryside Alliance Foundation in which young people are taught the unique skills of fly-fishing and offered a gateway into the natural world. This term five Year 11 students, led by teacher, Mr Paul Thompson, had the opportunity to take part in this programme with Mr Charles Jardine who has the reputation as one of the finest fishermen in England. Held in

Hostesses with the mostest!

From the left- Emma Hancock, Rachael Hindley, Tori Bell, Mel Holland, Lauren Gatford, Sarah McClelland, Jenny Duncton, Charlotte Webster-Salter, Amy Marks, Gabriella Groves, Rosie Mansbridge, Cloe Jamieson, Shannon Hook, Kirsty Stockman, Chloe Murfin, Jodie King.

Year 11 students taking a course in Hospitality provided entertainment and catering for 40 people (students and staff) at Easebourne Site recently, serving a healthy option lunch of sandwiches, crudités and dips.

"I was very nervous in the morning as I came to College with my table decoration of floating flowers, but once the event started it went really quickly and before I knew it was time to clear up!" said Shannon Hook. In 2009 Shannon reached the third round of the local Young Chef of the Year competition.

Sarah McClelland was pleased with the feedback from their happy customers, "It was great fun to see everyone enjoying the food and games we had prepared and we all got really high scores on our customer comment cards."

The smart set

Uniform plays a valuable role in contributing to the ethos of our College and setting an appropriate tone. Our website and the student planner clearly outlines our requirements. As you may know from your son or daughter, we have been reminding them of our expectations over the last few months. We have reminded boys that shirts should be tucked into trousers. Trousers should be worn so that no underwear shows, any belt needs to be plain black and ties firmly tied up to the top shirt button ties. Blazers should be worn at all times, including during arrival and departure from College. Everyone will be notified about any exceptions to this if the weather is too warm. Footwear for both boys and girls is formal (i.e. shoes). Black canvas plimsolls/trainers are not part of College uniform and are not allowed. The length and design of some of the girls' skirts currently being worn to College is unacceptable and those students have been requested to wear trousers or an alternative skirt. We will be following through these expectations over the coming weeks and ask that you support us in this. Jewellery and nail varnish are not allowed. *We are currently reviewing our uniform policy through discussions with our College council and would welcome your views as part of a parental forum. If you would be willing to be part of this consultation please contact Vice Principal, Mrs Christine Denne, through the College Office or via an email at christine.denne@mrc-academy.org*

Principal

It is only a short time since the last newsletter you received and in that time a lot has happened, most importantly this week's Ofsted inspection. I know that all parents will be anxious to know how this inspection went but unfortunately Ofsted are very clear that I cannot share any headlines until the report is written and approved. When this happens parents will be the first group to find out. What I *can* share with you is that both students and staff were brilliant during the two days and our visitors were impressed by the warmth and good atmosphere that existed on both sites of the College.

Since April, our building project has moved on and all the time that had been lost due to early delays has now been made up. I am reliably informed that the frame of the new College building will begin to be visible from North Street in June. As in *Grand Designs*, we aim to get the roof on for the winter!

The College is now entering the *second phase* of its development. Our Section 5 Ofsted Inspection Report will tell you how well we have done since opening just over two years ago but now we are looking forward to securing those elements that will make MRC an outstanding school. At this point in time our immediate priorities are as follows:

- High quality *Teaching & Learning* (including cross-curricular skills (Literacy, Numeracy and ICT), independent learning and study skills)
- High quality student *Assessment*
- Establishing a high quality *Curriculum* for all students
- Creating the right *Climate for Learning* (including students being 'ready to work, ready to learn', increasing the profile of the form tutor, improving uniform, and embedding the MRC experience)
- High quality *Behaviour for Living and Learning*
- Putting MRC at the *centre of the community* (through more partnerships and dawn to dusk community activity)

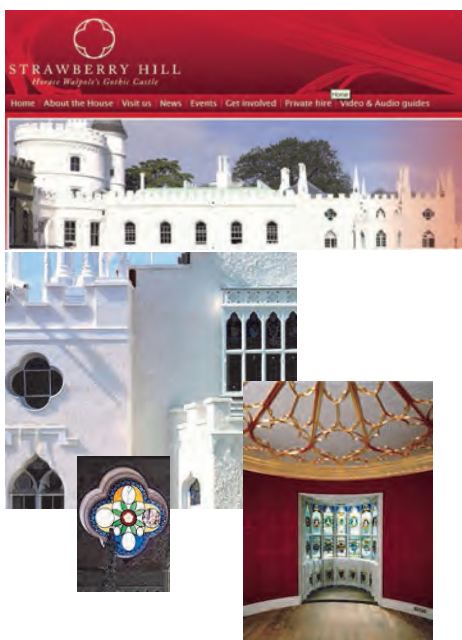

These are important objectives for us. We have gained a great deal from the Kirkland Rowell parental questionnaires and I look forward to the feedback event on the evening of Wednesday 29 June at 7pm, where we can share with parents the current picture of the College and also the plans we have for the future. Shortly after half term I shall be writing to parents giving further details about this important event.

Finally, I hope all our families have a good half term break. After it we continue with vital examinations and then move on quickly to the summer holidays. There's a lot to do and very little time in which to do it.

J.A. Vitagliano

Out and about

6th Form English students were recently very impressed when they visited **Strawberry Hill** in Twickenham. It is known as one of England's most elegant and eccentric Gothic Houses and has been painstakingly restored. Created by Horace Walpole, in the 18th century, Strawberry Hill is internationally famous as Britain's finest example of Georgian Gothic revival architecture. It also inspired the first gothic novel *The Castle of Otranto* written by Walpole himself.

In early May, eighty six Year 8 students spent the day learning about worship in Europe's first traditional Hindu Temple, **BAPS Shri Swaminarayan Hindu Temple, Neasden.**

The temple is beautifully handcrafted using traditional Indian techniques and materials. The students had a chance to take part in the daily "Arti" ceremony, visit the "Understanding Hinduism" Exhibition and meet members of the Hindu community.

Everything in our garden is lovely

The new entrance to Midhurst Rother College in North Street was today transformed by 51 pupils from local nurseries who will be students at the College themselves in the next decade. In attendance were children from First Friends, Early Days Pre-School Easebourne, Midhurst Nursery Class and Stedham Squirrels Playgroup. Along with helpers from the nurseries, MRC staff and newly appointed Head Girl and Head Boy, Principal, Dr

Vitagliano was there filling cans of water for the budding gardeners. Said Dr Vitagliano, "The atmosphere created by the enthusiasm of the nursery pupils was terrific. We were enthralled knowing that these youngsters, the first other than building workers to walk up the new drive, will be MRC students one day themselves."

Afterwards the pupils retired for refreshments in the building site viewing area where they peered through the safety railings at the hive of industry, and feverish activity of all the diggers, trucks and cranes. Every little boy's dream, so much so that Patrick from First Friends has already booked his place at MRC saying "I definitely want to come to this school."

Balfour Beatty, the construction company overseeing the new college building, took great pleasure in supporting the event providing the flowers and offering assistance with the planting. Each child returned to nursery full of exciting stories about the building, the new garden, a set of gardening tools and a sticker saying *Today I helped make the garden of Midhurst Rother College beautiful!*

New Heads of College Appointed contd/..

Lauren and Liam made have made a joint statement: "Our appointment into these important roles is a great achievement and an honour. The candidate process was rigorous, but it was definitely worth it and now in office we both aspire to help move the college forward.

Our predecessors Charlie (Chatwood) and Sophie (Lane) did a great job helping MRC get on the map, and their work has inspired us to continue the

improvement in the College's status. We want to make sure that our immediate and wider communities are aware of MRC in a positive light, of its fantastic attributes and our 'aim high' ethos."

Lauren's own thoughts on becoming Head Girl are clear, "It has been a real achievement and I am looking forward to facing the personal challenges ahead whilst making a positive impact on behalf of everyone."

Liam says he feels the same adding, "The position of Head Boy is a once in a lifetime opportunity that I will take great pride in and which will remain with me for the rest of my life"

Inside Track contd/...

Nathan Przepiorka said, "There's more to putting up such a big building than I thought. It was great learning about being a surveyor and getting to use the equipment."

Said Ms Terry Kelly, Assistant Principal: Business and Enterprise, "This is an amazing and quite an unusual resource for a school to have. The viewing area is perfectly placed so that students can learn about all aspects of the building project. The staff at Balfour Beatty are very accommodating. They are prepared to

offer sessions covering *sustainability* and the *environment, engineering, design* and *careers* in the industry overall. All these features can be built into lessons so we are hoping to take full advantage of this opportunity while it is here. Our next tutorial is for Year 12 A Level students focusing on project management."

Calling all

Following the enormous success of the 6 previous summer schools Midhurst Rother College will this year be hosting *Nature Intrepids*, a Gifted and Talented Summer School aimed at more able Years 5-7 students from Rother Valley Schools. The course will run for five days from Monday 1 August to Friday 5 August.

Our *Nature Intrepids* Summer School will investigate and compare different outside environments. Exploring diverse habitats including Shoreham Beach, Iping Common our school grounds and Marwell Zoo.

Our Calendar

JUNE

- 6 College re-opens following Half Term Break
- 8 Y7 Parents' and Carers' Consultation Evening
- 8 Y7 Sustainability Day
- 11 SHINE (Saturday School) Winchester College
- 14 Y10 Life Skills Day
- 14 Maths Challenge - tbc
- 14 Yrs 3,4,and 5 Rother Valley Visit 6.30-7.30pm
- 15 Yrs 7&8 Junior Mountbatten Athletics
- 17-20 Y9 Residential Trip to Paris
- 21 Y5 G&T Creative Art Day - Midhurst Site 9:30am-2:30pm
- 23 Yrs 3,4,and 5 Rother Valley Visit 6.30-7.30pm
- 24 Y11 induction to Year 12
- 24 Y13 Prom
- 27 Y11 Book returns - Capron House 9am-12pm
- 27 Y13 last week of exams
- 28 Y5 G&T Science Day—Easebourne Site 9.30am- 2.30pm
- 28 Summer Concert—Easebourne Site— 7pm-9pm
- 30 Y5 Local Science Day – 9:30am – 2pm - site tbs
- 30 Y11 Leavers' Ball

JULY

- 1 Y12 Futures Day incorporating UCAS – Memorial Hall
- 4 InSeT Day
- 5 Yrs7-10 Awards Evening
- 6 Yr6 into 7 Transition Day
- 6 Y9 Band Competition
- 7 Sports Day
- 7 LGB Meeting, Capron House
- 8 End of lessons for Year 12
- 8 Cabaret Night – Sports Hall 7-9.30pm
- 10 Vietnam Trip students leave
- 11 Activities Week
- 11 Yrs 10&12 Work Experience Week
- 11-13 Y7 Residential, Hayling Island
- 19 Y10 White Hart Lane visit
- 22 College Closes for Summer Break

AUGUST

- 1-5 Yrs 5-7 Nature Intrepids Summer School
- 9 Vietnam Trip students return
- 18 'A' Level Results Day
- 25 GCSE Results Day

SEPTEMBER

- 2 InSeT Day
- 5 Y7 & Y12 Only attend
- 6 College reopens to all Students
- 7 College photographs—Midhurst Site
- 8 College photographs—Easebourne Site

Please note that **Examinations Timetables** and details of **Summer Term Revision Support** can be found in the **Parent/Student area** on our website
