

Subject: Computing

Year group: 7

Independent Learning termly plan – Autumn

In Computing, our homework will focus on developing problem-solving skills with a series of short on screen problems. It can be helpful to have a pencil and paper to make some notes on with some of the challenges. In each set of challenges there are challenges with different levels of difficulty.

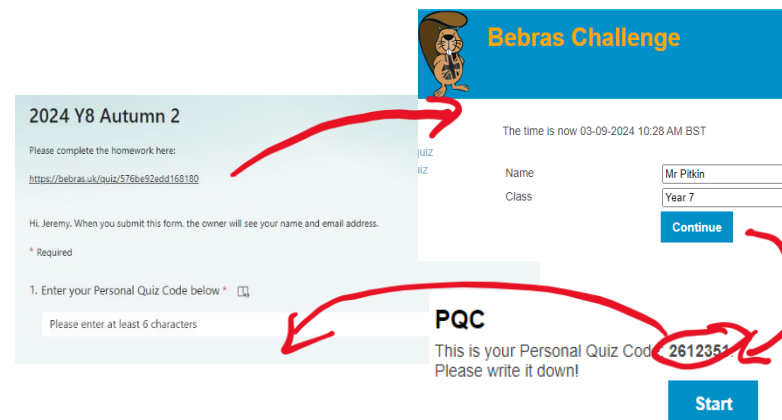

3 Points: Attempting Most of the questions

8 Points: Getting 80% of the available points in a task

15 Points: Getting 100% of the available points in a task

Week commencing	Topic area	Task description/link	Due date
